

Ideas and add-ons for Orbiter

Español

Descripción del complemento:

Este **es mi primer complemento**, me imaginé como se vería una nave espacial que arroje billetes por las toberas, y lo hice sólo por diversión, para probar.

Por supuesto, éste complemento no es realista, sólo es para divertirse.

Cómo instalar:

En el archivo .zip en contrará dos carpetas:

- 1-Money contrail
- 2- Backup

Para instalar simplemente copie el archivo Contrail1.dds ubicado en la carpeta Money contrail, y péguelo en \Textures en la carpeta donde usted tenga instalado Orbiter.

Para desinstalar simplemente copie el archivo Contrail1.dds, ubicado en la carpeta Backup, y péguelo en \Textures en la carpeta donde usted tenga instalado Orbiter.

Gracias por descargar este add-on

English

Description of complement:

This is my first add-on, I imagined a spacecraft would throw bills through the turbines, and I did it just for fun, to try.
Of course, this supplement is not realistic, it's just for fun.

How to install:

In the zip archive, find two folders:

1-Money contrail

2 - Backup

To install just copy the Contrail1.dds file located in the folder Money contrail, and paste it in \Textures in the folder where you have installed Orbiter.

To uninstall just copy the Contrail1.dds file, located in the Backup folder, and paste it in \Textures in the folder where you have installed Orbiter.
